

Every person has different needs.

We want you to get the help you need to move back to your community, heal, recover, and succeed!

Coming back to your community has challenges, and we are here to help.

**COMMUNITY
LINKAGE**

MONTGOMERY COUNTY,
OHIO

What is Community Linkage?

This is a free program for people leaving prison who have a mental illness and/or substance use disorder and have participated in treatment and/or recovery services while incarcerated.

This program helps you find housing, work, transportation, and/or treatment and recovery support services. The program also helps you plan your future and supports you during your transition home.

HOW DO I GET INTO THE PROGRAM?

Before you are released from prison, you will have contact with a community linkage worker.

They will help you figure out what services you may need.

The worker will link you with an agency in your community that can best meet your needs.

Upon release from prison, an appointment will be made for you at that agency.

If you have any questions during the process, please reach out to the agency to which you were linked.

***Treatment works,
people recover!***
